

FRITZ HANSEN

RIVIERA PRODUCT FACT SHEET

RIVIERA

Designed in 1991 in collaboration with Danish designer, Povl B. Eskildsen, the versatile Riviera series has become an outdoor classic, renowned for its flexibility and straightforward appearance. Taking a sustainability approach, the design optimises the use of materials, using the slimmest possible amount in the teak slats without compromising strength. The ingenious construction is adjustable by design, allowing the pieces in the Riviera series to transform in both expression and functionality and can easily be supplemented by a comfortable cushion.

PRODUCT TYPE

Sunbed
Lounge

SPECIFICATIONS

Wood: New wooden, teak furniture has natural colour differences found in the freshly cut wood. Once the furniture has been exposed to the sun, these colour differences will even out. As a natural part of the aging process, the surface of teak will change when first being exposed to rain; this is the first stage of a process of wood that ages with beauty.

WEIGHT

Sunbed: 12.3 kg / 27.1 lb
Lounge: 17.8 kg / 39.2 lb

COUNTRY OF ORIGIN

Wood origin: Indonesia

PRE-ASSEMBLED

No

PACKAGING

The units are shipped in a recycled cardboard box. All packaging material can be recycled.

CLEANING AND CARE

Find recommendations for cleaning and care at: fritzhanzen.com/maintenance

REPAIR, DISPOSAL AND REUSE

In case of repair and disposal the units can be disassembled into parts. All parts can be recycled. Check local regulations for recycling options and whether there is potential for reuse.

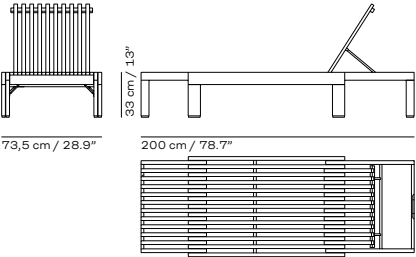

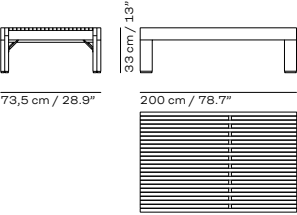

WARRANTY

Fritz Hansen provides a five-year warranty on standard products against defects in materials and workmanship.

CUSHIONS

DESCRIPTION

Riviera cushions are custommade to fit the series bringing an extra element of comfort for summer days relaxing. The backside is designed with an anti-slide textile that keeps the cushion in place. The cushion can be folded so it fits the versatile purposes of Riviera. The weatherproof upholstery textiles are Oeko-Tex®-certified and extremely colourfast, lightfast, water and dirt-repellent and mildew-resistant. The cushion dries exceptionally quickly as the foam's open-cell structure allows water and air to pass through. The quick-dry outdoor foam provides a firm and comfortable texture that remains the same year after year.

SPECIFICATIONS*

The quickdry outdoor foam provides a firm and comfortable seat that retains its shape year after year. The open-cell structure allows both water and air to pass through ensuring the cushion dries exceptionally quickly, even after a heavy downpour. To ensure cushions remain beautiful over time, it is good practice to avoid them being left wet for prolonged periods, e.g., by turning them upright to let water run off or storing them in a dry environment.

*For details specific to UK/IE go to p. 6.

WEIGHT

Lounge Cushion: 2,9 kg / 6.3 lb
Sunbed Cushion: 3,9 kg / 8.6 lb

IMPORTANT NOTE!

Under current UK law, Fritz Hansen is not able to provide outdoor cushions and pillows with the same filling as the regular collection. We still offer cushions and pillows in an outdoor textile with weatherproof properties, but the filling is not weatherproof due to stringent (indoor) fire regulations. We therefore recommend that you bring cushions and pillows indoors in heavy rain and when they are not in use.

The FR cold foam provides a firm and comfortable seat that retains its shape year after year. The FR cold foam is not weather resistant, and therefore it is recommended to store the cushions indoor when not in use and during heavy downpour. To ensure cushions remain beautiful over time, it is good practice to avoid them being left wet for prolonged periods, e.g., by turning them upright to let water run off or storing them in a dry environment.
