

BIRD

TURNING HEADS SINCE 1959

Bird is the essence of Danish design. Though simple in appearance, its clean lines create endless expressions by merely tilting its head in virtually any direction. Created as a family, from small to tall, thin to chubby, child to grandparent, Birds represent an entire generation.

Every Bird is made with a unique passion and understanding of both product and material. Along with precession and an urge to create perfection it combines it to the perfect Bird - every time.

Material
Handmade in oak wood

Dimensions
Bird - Small: H7,5 cm
Bird - Large: H12 cm
Bird - Chubby: H10,5 cm
