Product description:

A flexible multi-purpose rack with a simple functional design for practical use throughout your living space, may it be in the bathroom, kitchen, or hallway. The beauty of the framework and the formation of the pegs creates a structured design constituted by recognizable repetitions. The pegs are carefully detailed and have a curved form with a robust foundation. The sturdy and strong backrest provides durability and means that the coat rack can take considerable weight.

Designer's thoughts:

"We wanted to make a coat rack where repetition becomes an essential element of the expression. By repeating the same hook many times and putting them in a row, a graphically beautiful rhythm is created. The hooks have a rounded tip and a soft shape which provides better grip when hanging items like coats and jackets." - Herman Studio
