

Handle Vase

FSC certified wood

Handle Vase is designed by the Danish architect Eva Harlou. With the same original design language as the Double Bottle the Handle Vase offers an original yet functional way of arranging flowers and easily set a beautiful table. The vase is hand blown in borosilicate glass and rests elegantly on a foot of FSC certified oak that allows to play with positioning of the flowers. The handle further allows the vase to hang in displays and decorative setups.

Handle Vase
