Mater Dining Table

Designed by Mater & Thomas Lykke

Thank you for purchasing the Mater Dining Table

Mater Dining Table

FSC® certified beech wood

Designed by
Space Copenhagen

Dimensions
W 100 cm L 220 cm H 73 cm /
W 39.4" L 86.6" H 28.7"

Weight
50 kg / 110 lbs

Materials
Solid beech wood, FSC® certified,
Black powder coated steel

Finish
Sirka Grey Stained

Maintenance guide

Lacquered or stained wood

Lacquered or stained wood offers a stronger surface than oiling and is also effective when coloured surfaces are desired. Compared to natural or oiled wood, lacquered and stained wood is easier to clean and requires very little maintenance.

For daily care it is recommended to dust the furniture with a soft cloth. Lacquered and stained wood can be cleaned with a soft cloth wrung in a mild solution of lukewarm water and a universal cleaning detergent. Always follow the wood grains and always dry with a soft dry cloth immediately after cleaning.

Avoid use of abrasive cleaning agents and aggressive cleaning detergents as this will damage the surface of the lacquered or stained wood. Avoid placing wooden furniture in direct sunlight, excessive heat or humidity.

We always recommend use of trivets under hot objects, such as coffee pots and cups to prevent the lacquer or stain to react to the heat.

Why FSC®?

All wood in our collection is labeled and produced in FSC® certified wood. When producing furniture from FSC® certified wood we support well-managed forestry. In an FSC-certified forest no more trees than the forest can reproduce are felled, so the exploitation of nature is avoided. FSC ensures fair wages and a fair trading price and gives full traceability. We can trace a chair back to the forest where the tree was planted.
